

“No One Turned Away for Lack of Funds” Policy 2022

The price for Medida - the platform, the training and the customer support - is \$7,000 USD a year. That being said, we’re committed to accessibility and have outlined our larger ‘No one turned away for lack of funds’ policy below.

TLDR: we offer a sliding scale below with our suggestions for how to locate the pricing that’s most appropriate for your organization. This is how we are balancing our vision and values with our business costs.

Here at Medida, we believe in a world where organizations of any size can work with their data to better serve their communities. But how can we cover our costs and provide a high quality service to small, community-focused organizations?

We’d like to introduce you to our “No one turned away for lack of funds” Pricing Policy. Within this policy, we’ve outlined a sliding scale of product and service costs along with our suggestions for how to locate the pricing that’s most appropriate for your organization. Please note, if you don’t see your organization reflected in this scale, we are always available for a conversation.
